## Open House Set For New Library

An enthusiastic group of Friends of the Library met in the new library building last week and elected Earl Whaley as president of the Friends for the coming year. Mrs. Morden Post vice-president, Paul Thompson treasurer, Mrs. Mike Steger recording secretary and Mrs. Bill Joseph corresponding secretary. Wesley Kumpula and Eli Beery were elected to three-year terms as trustees along with Mrs. Matilda Bishop, retiring president.

IT WAS DECIDED to hold open house on July 4th during the city's all-day celebration and thus give everyone an opportunity to see and appreciate this new community building of contemporary design and decoration. Eli Beery is to be in charge of the arrangements, with Mrs. Lewis Konvicka, Mrs. Morden Post, Harold Gazan, and Mrs. Eli Beery as assistants.

Dr. Paul Dosch, chairman of the Library Board, announced that as soon as the gold color nylon carpeting is delivered from the mills in Alabama, the moving will be completed and the library will be open to the public.

Mrs. Harry Souders, assistant librarian, announced that the present library will be closed as of July 1 so as to complete the transfer. She stated that it would be much appreciated if anyone had a little time to spare during the time the library is open, 1 to 5 and 6:45 to 9:15 p. m., and would bring a box or two along so they could help pack some 8,000 books, which is quite a time-consuming job.

The next meeting of the Friends of the Library will be on July 13 at 8 p. m. Circle this date and share in the rewards of being a part of this worthwhile project.

## Danger Closes Picnic Area

Due to increased traffic on M-72 west of Grayling a picnic area located on the north shore of Lake Margrethe on the highway is being closed.

In a letter to Crawford County Road Superintendent Carl Carlson from Leonard S. Thompson, District Forester, he stated: "Inasmuch as our primary concern is the safety of the public we are requesting that you refrain from future or continued operation of this location as a roadside table site."

THE DISTRICT Forester cited three main reasons for the request. Firstly, the frequent and dangerous shoulder parking necessitated by the restricted area; secondly, complaints of public trespassing on privately owned beaches and thirdly, the restricted size of the location which prohibits adequate development to comply with minimum safe standards for recreational use.

A previous traffic study indicated the need for "no parking" signs along the shoulder on the north side of M-72 and the decision has been made now to sign the south side of the highway as well.

The flow of traffic on M-72 west of Grayling has been building higher and higher with the advent of expressway 175 to Grayling. Most traffic coming north and eventually headed for the north-west quadrant of lower Michigan, drops off at Grayling and heads west on M-72.

## Independent Baseball Team Is Organized

Thanks are extended to Burns Hardware, Buck Dodge Chevrolet, Spikes & Sons and the Plaza for their donations to help the local team in purchasing equipment. Anyone who is interested in helping the team is asked to contact Wayne Brainer or Bill Worden.

All of this is then to be followed by various games and/or contests for "little kids" and "big kids" too, interesting enough to assure them of good wholesome fun.

So — this is the Homecoming Program for 1965. It is entirely possible that there will be a change here and there on the program, as it moves along, but the Committee assures you that it is going all out to provide all that will be loyal enough to attend, the opportunity to have a genuine good time.

## Bugs Are Here Again

By David Olson

Every year along with the warm summer weather the insects arrive. This area of Michigan has many forest insects that regularly are present, but seldom reach epidemic levels. The jack pine stands have been suffering from defoliation by the Jack-Pine Budworm for the past two years.

As you drive by the jack pine forest, you may notice trees with a thin crown or apparent lack of all the usual needles. These trees have a lacy look and not a good deep green color. White pine and red pine under the jack pine may also be damaged by the budworm.

The larvae or worm stage of the jack pine budworm begin their feeding activity in May. They mine and destroy old needles and feed on the pollen in the male flowers. New shoots are webbed together with a fine thread.

In June, the insect begins to feed on newly formed foliage, clipping the needles and tying them together.

The actual damage to a tree becomes noticeable in mid-July when the needles begin to dry up. The tree then looks as if it had been scorched.

The larvae or worm grows to one

### DEPARTMENT CALLED TO FIVE FIRES

The Grayling Fire Department responded to five alarms last week. The first was Friday night at 8:55 p. m. for a motorcycle on fire one mile north of Grayling on Old 27. The fire was caused by a broken gasoline line. No damage to speak of resulted, Department spokesmen stated.

On Saturday morning at 9:30 a car was reported on fire 5 miles south of the city on I-75 north-bound. The vehicle was never found, and the department learned later it was in Roscommon county and had been handled by equipment there.

At 10:50 Saturday morning a fire in the sawdust pile at the Southside Wood Products was quickly brought under control.

At 1:10 Saturday afternoon, a 1960 Mercury on fire 4 miles south on I-75 southbound, with Michigan license, driven by Indiana Guard, was serviced. An overheated axle bearing caused this fire and the car was a total loss, according to the department's report.

FIREMEN were called back to the South Side Wood Products for another fire in the sawdust pile at 1:45 Saturday afternoon. The Conservation Department equipment was called in on this blaze by the city department because of the possibility of the fire spreading to the woods. Conservation equipment bulldozed around it and pushed everything into one pile, and the fire was soon completely controlled.

### Completes Training for "Head Start" Program

Mrs. Virginia Minor has returned from a week of training at Central Michigan University in connection with the "Head Start" program to be conducted this summer in Grayling.

- \* Helping the child's emotional and social development by encouraging self-confidence, self-expression, self-discipline and curiosity.
- \* Helping children to get wider and more varied experiences which will broaden their horizons, increase their ease of conversation and improve their understanding of the world in which they live.
- \* Giving these child frequent chances to succeed.
- \* Increasing the child's ability to get along with others in his family and, at the same time, helping the family to understand him and his problems — thus strengthening family ties.

## Attend The Church Of Your Choice

## BEEN SHOPPING LATELY?

Sure! People go shopping for many things. Even a Church! But, then, they take Dad along!

Before you go shopping for a Church, make sure you know what you're looking for. For a Church isn't a theatre to provide entertainment, nor a club to fortify one's social position, nor a foundation to channel our charities.

A Church is a SCHOOL that trains whole families in spiritual perception. It is a FACTORY that makes earnest Christians. They're in evidence all over town.

A Church is a TOWER, giving a glimpse of life's horizons, far beyond the petty problems of each day.

A Church is a WORK-SHOP where one volunteers his talents in the most challenging tasks that confront humanity.

And, of course, a Church is HOME — the place where we're appreciated, where we're one of the Family!

But it doesn't hurt to admit that in one respect our churches are like our stores: There wouldn't be one in town if we didn't need what they offer!

## What America Needs...

David Lawrence is one of the many thoughtful writers who are gravely concerned with the government's continued deficit spending. This, for a time, may help to create and maintain economic booms. But in the long run, it can be the source of runaway inflation and fiscal disaster.

In a recent U. S. News & World Report column, Mr. Lawrence said: "What America needs is a comprehensive program of expense cutting, along with a stimulus to business which will produce more tax receipts. Such a plan cannot be confined to a single year. There ought to be at least a five-year look ahead, with a program for a balanced budget which would be accepted as the reasonable reflection of a sound trend in Government finance."

"The American people would welcome an end to the deficit era — a total deficit of \$49.8 billion in the last 10 years, with \$30 billion of this piling up in the last five years. The official figure for the public debt now is close to \$317 billion. It's the biggest debt that any nation has ever faced in the history of the world."

## Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE  
FILES OF THE AVANCE OF 23 YEARS AGO

JUNE 25, 1942

Fifty-five ladies gathered at the Michelson Memorial church Friday afternoon to attend a tea in honor of Mrs. Augustus Funck. The party was planned by the Aid societies and the Sunday School teachers to show their appreciation for the many years of service Mrs. Funck has devoted to Sunday school work. Before lunch was served Mrs. Eva Wingard presented the guest of honor with a gift from the group. Mrs. Funck responded giving much credit to the teachers and officers who worked with her. After lunch a social hour was enjoyed.

An army truck carrying 9 members of the 184th Field Artillery regiment capsized as a result of skidding just after rounding the sharp curve near Collen's corner at Lake Margrethe. It is reported to have been travelling at a high speed. The men in the car were piled into a heap beneath it. Men in an army car that was just ahead saw the accident and returned to assist. The most seriously injured was James Hayes, 22, who suffered a broken neck. He is reported to be getting along very well and will recover. The crash was heard by Mrs. Roy McEvers whose home is nearby, and that lady immediately hurried to the scene. There seemed to be chaos among the men and she took charge of the injured ones. She assisted in removing the men from the truck and saw they were kept quiet to await the ambulance.

Mrs. Alfred Hanson and Mrs. Neal Mathews held the high and low scores respectively for pinchle and Mrs. N. VanNatter for bunco. Lunch was served.

Grayling people regret to learn that Cecil Roberts has tendered his resignation as a member of the high school faculty and has accepted a position in the U. of D. private school for boys at Grosbe Pointe where he will teach mathematics. Education Act's Title I Provisions Are Reviewed

Title I of the Elementary and Secondary Education Act of 1965 provides financial assistance to local educational agencies for special programs in areas having high concentrations of children in low income families.

Michigan's estimated allotment under this title, if Congress makes the full appropriation authorized by the Act, will be \$2,725,300. The allotment is based on the estimated current expenditures for public elementary and secondary schools in the State. The money can be used to hire additional staff, construct facilities, acquire equipment, etc., and will be administered through the State Educational Agencies.

THE AMOUNT each local school district might receive, would depend on two factors: (1) The average annual current expenditure per school child in the entire State; and (2) The number of school-age children in the district from families with annual incomes of less than \$2,000 and those in families receiving more than \$2,000 annually from the program of Aid to Families with Dependent Children. One-half the first, multiplied by the second would be the amount for which a local district would be eligible.

Each local education agency must devise its own plan for up-

grading the education of deprived children and submit it to the State Education Agency for Approval. The Department of Public Instruction is presently developing guidelines to aid local districts in program planning. Meanwhile school administrators are advised by the Department to begin developing plans by identifying needs and tentatively setting up the type of program they would establish.

The State guidelines will be broad since it is expected that programs will vary from district to district. A program effective in a rural area might be entirely inappropriate for an urban area. A whole school system might be basically a low-income area, and its best approach might be to upgrade the regular program.

The Act encourages local districts to use imaginative planning and new approaches. Witnesses testifying during Congressional hearings on the Act cited these types of activity: inservice training; additional teaching personnel and aides; supervisory staff and full-time specialists; curriculum materials centers; classes for the talented; special classes for the handicapped, disturbed or socially maladjusted child; preschool programs; Saturday morning enrichment programs; increased guidance, health, psychiatric, and psychological services and home and school visits by social workers; supplemental health and food services; English programs; clothing, shoes and book provisions; summer schools and day camps; on-the-job training for high school students; all types of audio-visual aids, language, science and reading laboratories, and programmed instruction materials; home bookmobile visits and field trips.
